

# VACCINE - PROJECT

HYBRID - LEARNING

## TOOLBOXES FOR STUDENTS & TEACHERS

**Target group: vocational education and training staff members  
working with vulnerable students**

### PEDAGOGICAL, DIGITAL & SOCIAL

Toolboxes are customized to fit both teacher and student needs to reach efficient learning outcome. This is achieved by the implementation of awareness scales. They are presented in the form of easy to follow video tutorials, are targeted at vulnerable students and include: **digital, pedagogical & social concepts.**

### IMPLEMENTATION

Toolboxes are presented in the form of easy to follow video tutorials.

### SOCIAL

Communication style and the promotion of participation is highly valuable. Leadership skills, as well as being fair and sensitive is key to high-quality teaching.

### DIGITAL

These deal with state-of-the-art online collaboration or editing tools to improve remote team work or presentation skills. Examples are: **Zoom, MS Teams & Google Meet, online whiteboards** and image-editing software such as **GIMP & Canva**. It also includes fun online-games such as **Kahoot!**

### PEDAGOGICAL

We created learning plans using different teaching methods that raise interest and motivation. These are subdivided into authentic & cooperative outcomes. They include flipped classroom. By observing students and evaluating their learning path, an ideal education environment is created.

Co-funded by the  
Erasmus+ Programme  
of the European Union

This project has received funding from the Erasmus+ Programme (KA226 – Partnerships for DigitalEducation Readiness) under grant agreement Nr.: 2020-1-FI01-KA226-VET-092679
